Dynatex®

Product Solution

Anti-Seize Lubricants

Hand Cleaners

Sealants

Gasket Makers

Aerosols

Dynatex offers three popular Anti-Seize lubricants: Aluminum, Copper and Nickel. All three leave a protective film that seals and protects metal parts even under the most extreme conditions of heat and corrosive environments.

Aluminum Anti-Seize – is a Heavy duty economical industrial anti-seize lubricant that contains finely divided metallic particles in a special no-melt petroleum base grease.

Nickel Anti-Seize – A Heavy Duty Anti-Seize lubricant paste containing a balanced blend of pure nickel and graphite, homogenized into a semi-synthetic, non-melting grease base. Dynatex Nickel Anti-Seize does not contain any sulfur, lead, copper, halogens or clay fillers.

Copper Anti-Seize – is a Heavy duty economical industrial anti-seize lubricant that contains a high concentration of Copper metallic particles in a special no-melt petroleum base grease. The Dynatex Anti-Seize leaves a protective film that seals and protects metal parts under extreme conditions of heat, pressure, and steam and water exposure.

Dynatex is an ISO 9001 certified manufacturer and packager of branded and private label chemicals for everyday Automotive, Heavy Duty and Industrial Maintenance Markets
